For a number of years, PCA/ACA has facilitated the exchange of conference papers for those who wish to obtain copies of others’ papers and for the benefit of the PCA/ACA Endowment. We ask you to bring 25 copies of your paper to the Paper Table in the center of the book exhibit. Each paper will be sold for $1.00; all proceeds go to the Endowment. Last year, over $1,000 was raised.

The Paper Table, as it has come to be known, is often a fascinating source of information and a good way to find others who are dealing with the same issues as you but with different approaches. Moreover, the Paper Table is also regularly visited by publishers looking for manuscripts and by editors developing collections.

The Table will be open whenever the book exhibit is open, Thursday and Friday (8:30-4:30), and Saturday morning (8:30-12:00). If you would like to pick up unsold copies of your paper, please stop by before noon on Saturday to retrieve your manuscripts.

Thursday March 20 – 8:30 AM – 4:30 PM
Friday March 21 – 8:30 AM – 4:30 PM
Saturday March 22 – 8:30 AM – 12:00 PM

(Please observe these hours; any changes will be posted at the registration desk and outside the exhibits hall.)

Black Music Culture: Area Meeting
Thursday, March 20, 2:30 p.m. – 4:00 p.m.
Pacific Suite F

Chairs:
William C. Banfield, Berklee College of Music
Angela M. Nelson, Bowling Green State University

The Black Music Culture Area Co-Chairs will lead an interactive
session with the 2008 presenters to discuss the aims and purposes of
the area, overview the panel presentations, and speculate on the
reasons for the dearth of scholarship on black popular music
(specifically, R & B and gospel) presented at the conference and the
high volume of presentations on hip-hop culture.

Comic Art & Comics: Area Meeting
Saturday, March 22, 8:00 a.m. – 9:30 a.m.
Sierra Suite F
Chair: Nicole Freim

Panelists:
Katie Whitlock, California State University, Chico
Joshua Call, University of Nebraska-Lincoln
Tony Avruch, Bowling Green State University

Over the past thirty years digital games have become an
increasingly ubiquitous part of American popular culture, however
it has only been in the last several years that the academic study of
digital games has emerged as its own interdisciplinary area of
scholarship. The combined Digital Games Areas of the PCA and
ACA invite scholars to engage in a roundtable discussion with the
area chairs about directions and developments in the field of digital
games research and the disciplinary perspectives that inform them.
This opportunity to converse about methodologies and matters relevant to digital games scholars will also serve as a forum to help map future trajectories of the Digital Games Area at the PCA/ACA National Conference.

ROUND TABLES
& OPEN FORUMS

Moderator:
Michele Braun, Northeastern University

Discussants:
Mary Findley, Vermont Technical College;
Patrick McAleer, Indiana University of Pennsylvania

Buffy the Vampire Slayer certainly found popularity in the late 90s all the way to its series conclusion in 2003, with the spin-off Angel and the graphic novelization of the series’ eighth season sustaining this fandom. Among the magnetic draw of this show, with its campy dialogue, lovable (and despicable) characters, and expansive imagination, what are some of the unspoken elements of Buffy the Vampire Slayer which pull audiences in to enjoying the show? (Or, what keeps the DVD sales steady?) This roundtable will consider the more obscure or unstated elements of the show which create its appeal and layers of not only pleasure but intellectual engagement.

The combined Digital Games Areas of the PCA and ACA invite scholars to engage in a roundtable discussion with the area chairs about directions and developments in the field of digital games research and the disciplinary perspectives that inform them.
This opportunity to converse about methodologies and matters relevant to digital games scholars will also serve as a forum to help map future
trajectories of the Digital Games Area at the PCA/ACA National Conference.

Upscale men have been in vogue for the last several years. From the arrogant, sexy men of desperate housewives to the complex successful male characters in the TV shows Dirty Sexy Money, Grey’s Anatomy, Private Practice and MadMen to popular Hollywood celebrities like Brad Pitt, Denzel Washington, Matt Damon, Will Smith and George Clooney. The same holds true for politicians like Barack Obama, John Edwards and Mitt Romney. Each have been labeled “matinee” candidates do to their looks. Even non-famous upscale men have been the focus of mass attention. Publications like Gentlemen’s Quarterly and Details Magazine cater almost exclusively to young, upwardly mobile generation X men. This roundtable will explore several facets of this phenomenon and the multiple images of how upper income men are portrayed in traditional (print, film, television) and online media.

Yerba Buena Salon 12/Salon 13
Moderator:
Tony Magistrale, University of Vermont
Discussants:
Gary Hoppenstand, Michigan State University

The question of race and racism, as well as gender and sexism, is intriguing when one considers both the vast canon of King’s work and the preponderance of films based closely or loosely on his texts. This roundtable will consider the presence and absence of race and gender in the films of Stephen King and will consider the rather narrow lens through which these films seem to view this country.

Alcatraz Tour
Saturday, March 22, 1:25 p.m. – 4:30 p.m.
Meet at Pier 33 at 1:25

Organizer: Lynn Bartholome

“Alcatraz and history go hand in hand. Once home to some of America’s most notorious criminals, the federal penitentiary that operated here from 1934 to 1963 brought a dark mystique to the Rock. The presence of infamous inmates like Al “Scarface” Capone, and the “Birdman” Robert Stroud helped to establish the island’s notoriety. To this day, Alcatraz is best known as one of the world’s most legendary prisons.

Many people, though, are unaware of the wealth of other stories to be learned on the island. Alcatraz is now home to rare flowers and plants, marine wildlife, and thousands of roosting and nesting sea birds. Civil War-era buildings dotting the island give insight into the 19th century when the island served as both a harbor defense fort and a military prison. You can also see visible reminders of the American Indian Occupation that started in 1969 after the prison closed, highlighting an important milestone in the American Indian rights movement” (http://alcatrazcruises.com/)

In addition, a special showing of a movie in honor of the late Bill Jones, co-editor of the Journal of American Culture.

Details follow:
William M. Jones, former co-editor of The Journal of American Culture, loved a good party. Prior to his surgery for cancer and subsequent death last May, Bill suggested a theme issue of the journal on parties and celebrations. We are planning such an issue in his honor. A call for papers appears below. In anticipation of the issue, we are presenting a special showing of The Party (1968) (99 min.), a hilarious comedy produced and directed by Blake Edwards and starring Peter Sellers. Come and see what happens when an accident-prone Indian actor, Hundi V. Bakshi, gets mistakenly invited to Fred Clutterbuck’s opulent Hollywood bash! Nothing says more about a culture, or its particular sub-cultures, than celebrations. Reflective of a society’s value system and indicative of gender, race, ethnicity, class, and age concerns, people’s parties serve as important life markers, often denoting rites of passage or interpersonal bonding. In light of this, The Journal of American Culture is publishing an issue devoted entirely to the topic of parties and celebrations in American culture (for details, look in the ads section at the back of this book).

This presentation will demonstrate *American Social History Online* a project of the Digital Library Federation that provides scholars with access to distributed digital library collections pertaining to American culture and life. *American Social History Online* tools and services are designed to make it easy to find, organize, use and share items from diverse collections.

The *American Social History Online* website is designed for easy discovery of previously unknown collections and material as well as easy retrieval of known items. By using Zotero, a free easy-to-use research tool that works with the Firefox web browser, scholars can gather and organize resources as well as annotate and share them.

To support the use of images, Collectus and ImageViewer tools developed at the University of Virginia are integrated into *American Social History Online*. These tools not only support saving and organizing image collections but provide for slide show creation so the image material can be used easily in the classroom.

*American Social History Online* has been developed using open source software and is currently available without fees or restrictions through generous support from the Mellon Foundation. The *American Social History Online* team continues to add collections and is also developing integrations with the Sakai open source course management system and a federated search solution that will combine search results for *American Social History Online* content with commercially available content.

And is a value judgment of the upscale male possible? Is he good, bad, both or neither?

MOTORCYCLE AS FASHION STATEMENT
Moderator: Ethan Berry, Montserrat College of Art
Presenter: Tom Zimmeroff, AOTC Corp.

Highly acclaimed photographer Tom Zimmeroff will give a special presentation based on his book, Art of the Chopper (Bulfinch Press), the second-best-selling title about motorcycles ever published and one of the best-selling photography books in recent years. At 130,000 copies in print with a second volume, it is surpassed only by the Guggenheim’s catalog for The Art of the Motorcycle. Instead of tracing the evolution of industrial design as a metaphor for the 20th century, Zimmeroff has posed a parallel for haute couture with “haut moteur” as a plausible basis for his work and as an inevitable corollary to the Guggenheim exhibition.

Zimmeroff is known for his portraiture, which can be found in the collections of the National Portrait Gallery in London, the Los Angeles County Museum of Art, the San Francisco Performing Arts Library &

Elwood Watson, East Tennessee University  

Upscale men have been in vogue for the last several years. From the arrogant,  
sexy men of desperate housewives to the complex successful male characters  
in the TV shows Dirty Sexy Money, Grey's Anatomy, Private Practice and  
Mad Men to popular Hollywood celebrities like Brad Pitt, Denzel Washington,  
Matt Damon, Will Smith and George Clooney. The same holds true for  
politicians like Barack Obama, John Edwards and Mitt Romney. Each have  
been labeled “matinee” candidates do to their looks. Even non-famous upscale  
men have been the focus of mass attention. Publications like Gentlemen’s  
Quarterly and Details Magazine cater almost exclusively to young, upwardly  
mobile generation X men. This roundtable will explore several facets of this  
phenomenon and the multiple images of how upper income men are portrayed  
in traditional (print, film, television) and online media. Questions worth  
exploring include: what are the political, economic, racial, sexual and gender  
implications of today’s upscale male? Is today’s upscale male a new breed or  
just a recycling of an older persona? How does this “performance” play a part  
in the constructed characterization of the upscale man? And is a value  
judgment of the upscale male possible? Is he good, bad, both or neither?

549 Film XXIV: Two Documentary Films by David Liban: *Geocache* and *The Ghosts of Etilich Theatre*
Chair: David Liban, University of Colorado, Denver

In this session David Liban will screen and discuss his two recent 30-minute documentaries, *Geocache* and *The Ghosts of Etilich Theatre*.

*Geocache* – Geocaching is a high-tech treasure hunt where participants use a GPS to look for items hidden all over the world. It’s a new and growing sport that combines the internet, global satellite positioning (GPS) technology and hiking. Learn how the game is played as well as about the characters who live and breathe geocaching.

*The Ghosts of Etilich Theatre* – Now renovated, placed on the national registry of Historic Places, and listed as a Landmark, the Etilich Theater was built in Denver in 1891 with the notion that it would bring to its stage some of the world’s most popular stars. This documentary is both an historical documentary about the theatre and a ghost story, as many people believe that the ghost of proto-feminist Mary Etilich had kept the theater from collapsing, and the filmmakers brought in a group of paranormal researchers to determine if indeed the theatre was haunted.

562 Roundtable Discussion: Buffy the Vampire Slayer’s Hidden Agenda?
Moderator: Michele Braun, Northeastern University
Discussants: Mary Findley, Vermont Technical College;
Patrick McAleer, Indiana University of Pennsylvania

_Buffy the Vampire Slayer_ certainly found popularity in the late 90s all the way to its series conclusion in 2003, with the spin-off _Angel_ and the graphic novelization of the series’ eighth season sustaining this fandom. Among the magnetic draw of this show, with its campy dialogue, lovable (and despicable) characters, and expansive imagination, what are some of the unspoken elements of _Buffy the Vampire Slayer_ which pull audiences in to enjoying the show? (Or, what keeps the DVD sales steady?) This roundtable will consider the more obscure or unstated elements of the show which create its appeal and layers of not only pleasure but intellectual engagement.

Over the past thirty years digital games have become an increasingly ubiquitous part of American popular culture, however it has only been in the last several years that the academic study of digital games has emerged as its own interdisciplinary area of scholarship. The combined Digital Games Areas of the PCA and ACA invite scholars to engage in a roundtable discussion with the area chairs about directions and developments in the field of digital games research and the disciplinary perspectives that inform them. This opportunity to converse about methodologies and matters relevant to digital games scholars will also serve as a forum to help map future trajectories of the Digital Games Area at the PCA/ACA National Conference.

669 Motorcycling Culture and Myth VII: Special Presentation: Art of the Chopper as Haut Moteur: "The Motorcycle as Fashion Statement"
Moderator: Ethan Berry, Montserrat College of Art
Presenter: Tom Zimmeroff, AOTC Corp.

Highly acclaimed photographer Tom Zimmeroff will give a special presentation based on his book, *Art of the Chopper* (Bulfinch Press), the second-best-selling title about motorcycles ever published and one of the best-selling photography books in recent years. At 130,000 copies in print with a second volume, it is surpassed only by the Guggenheim's catalog for The Art of the Motorcycle. Instead of tracing the evolution of industrial design as a metaphor for the 20th century, Zimmeroff has posed a parallel for *haute couture* with "haut moteur" as a plausible basis for his work and as an inevitable corollary to the Guggenheim exhibition.

In 1998, some critics doubted if such a "utilitarian" thing as a motorcycle belonged in an art museum. Perhaps they misconstrued the line connecting
SATURDAY
10:00 – 11:30 a.m.

motorcycles to art as either coming up short or tangential because so few
individual artists were represented in the Guggenheim’s collected works. All
but two of their one hundred eleven examples were manufactured
commercially. Conversely, each example Zimberoff cites is literally a vehicle
of self-expression created by a singular artist, a one-off piece of rolling
sculpture. He makes a compelling case for the contemporary art of the
motorcycle.

Zimberoff is known for his portraiture, which can be found in the collections
of the National Portrait Gallery in London, the Los Angeles County Museum
of Art, the San Francisco Performing Arts Library & Museum, the Eretz Israel
Museum in Tel-Aviv, and the Corcoran Gallery of Art in Washington, DC,
among other institutions. His images of celebrities, scholars, artists, scientists,
business leaders, and politicians—including two sitting American Presidents—
have also been published worldwide and have appeared on the covers of Time,
Fortune, Money, and People.

684 Special Session: American Social History Online: One Place, Many Collections

This presentation will demonstrate American Social History Online a project of the Digital Library Federation that provides scholars with access to distributed digital library collections pertaining to American culture and life. American Social History Online tools and services are designed to make it easy to find, organize, use and share items from diverse collections.

The American Social History Online website is designed for easy discovery of previously unknown collections and material as well as easy retrieval of known items. By using Zotero, a free easy-to-use research tool that works with the Firefox web browser, scholars can gather and organize resources as well as annotate and share them.

To support the use of images, Collectus and ImageViewer tools developed at the University of Virginia are integrated into American Social History Online. These tools not only support saving and organizing image collections but provide for slide show creation so the image material can be used easily in the classroom.

American Social History Online has been developed using open source software and is currently available without fees or restrictions through generous support from the Mellon Foundation. The American Social History Online team continues to add collections and is also developing integrations
with the Sakai open source course management system and a federated search solution that will combine search results for *American Social History Online* content with commercially available content.

The People's Voice: 
A Populist Cultural History of Modern America 
by David A. Horowitz

The People's Voice chronicles the outpouring of cultural expression since the 1890s, addressing the everyday experiences, aspirations, and problems of ordinary people. Starting with the legacy of nineteenth century giants like Walt Whitman, Mark Twain and Stephen Foster and advancing to contemporary film, TV, hip-hop, and country music, the book blends samples of creative writing, visual production, performing arts, and the media into a general treatment of the populist theme in the creative works of American national culture.

Gender and Culture in America, 3/E 
by Nancy P. McKee and Linda Stone

Gender and Culture in America traces the evolution of gender identity and gender interaction from colonial times to the present. In addition to general chapters on American gender issues through time, the book features specific chapters devoted to minority ethnic groups, college/university students, alternate sexual orientation and extranuptial families.
